### Care Instructions for WC's with Special Finishes

- For everyday care, we recommend a soft, non-scratch sponge or cloth and clean water.
- If you wish to use a cleaning product, choose a standard all-purpose cleaner (diluted with water). Do not use aggressive or abrasive products.
- Warning: DO NOT use any cleaning products (Example Harpic) on seat cover surfaces.

**Care Instructions for Faucets & Showering Systems In Special Finishes**

- The product can be cleaned with warm water, a mild soap and a clean soft cloth. Clean progressively and gently.
- The ideal cleaning technique is to always blot dry any water from metal surfaces. Allowing water to evaporate on metal will form water deposits.
- It is not required to use any abrasive cleaning pads, wire wool or micro-fibre cloths to clean the product.
- Abrasive or strong cleaning products containing ammonia, bleaches, alcohol, dyes, acids (hydrochloric, formic, phosphorus, chlorine or acetic) will be detrimental to the product finish.
- If limescale has built up on your product do not attempt to chip this off as this could damage the protective lacquer and lead to further damage. Several applications of lemon juice (not a concentrate) or white vinegar, followed by a thorough rinsing with clean water will slowly help to remove it.
