Artize

A luxury bath brand,

BORN FROM ART

A flair for the extraordinary; a design aesthetic that is contemporary and minimalist and technology that brings it alive, flawlessly.

Artize products are conceived by globally renowned designers who use Artize's 'craftsmanship' approach to creating objects rooted in nature and top-notch design sensibility. Inspired by this magical touch of art, the luxury lifestyle/wellness - brand Artize aims to create inspiring artful spaces in an area one rarely associates with the word 'ART' - the bathroom. This thinking has resulted in many achievements for the Artize brand, including winning the prestigious Red Dot, Good Design and IF design awards, among others.

Artize is a classic blend of unique designs, minimalistic shapes, and meticulous finishes that sets new benchmarks in redefining the landscape of luxury bathrooms. Born From Art, as the name suggests, Artize is set to redefine the 'form' that one is used to in a typical bathroom space. Connoisseurs of beauty and art around the world can look forward to inspiring designs that shed the old garb of 'what

one knows' and move to a unique experience of 'what one sees' - never for a moment appearing ordinary or mundane every day. An artistic representation of exquisite craftsmanship that inspires, transforms, and delights. Artize is a luxury brand from Jaquar Group, Jaquar group is a leading complete bathroom and lighting solutions global brand present across 55 countries.

Being creators of art ourselves, we cater to design connoisseurs around the globe. Consequently, our bathroom products are not only designed to surpass the highest standards of luxury, quality, and perfection but also seek inspiration from high art ranging across forms, time, and borders. While an eye-catching piece of art does seem like the ideal way to add character to your bathroom, why should your bath fittings be any less than works of art? Beauty and functionality mingle at every turn in each Artize offering.

The result - an elevated bathroom experience where art and technology co-exist.

VIC

MODERN NEO-CLASSIC

"Artize creates luxury products that push aesthetic, form and functionalities. As designers we infuse beauty in everyday objects, transforming a routine experience into a truly special one: embedding art in daily life. Together, our aim was to design an authentic and timeless collection, able to adapt to prestigious contemporary bathrooms as well as to exclusive retro atmospheres.

VIC collection is a fusion of contemporary and classic design. We live in a world that is looking eagerly at the future and yet longing its past. People nowadays are focused on innovation and technology and at the same time are fascinated and comforted by heritage and tradition. With that thought in mind, we looked back at a period in which a more lyrical and detailed aesthetic was the norm: VIC is a unique mix of the essential and minimalistic soul of modernism, and the elegant and rich soul of classicism.

VIC collection is sober and elegant, yet at the same time aristocratic and exclusive. It is not a revival of a style but a new equilibrium between old and new, which is completely unique. We call it modern neo-classic.

The very same creative idea is applied to the whole VIC collection: pure lines and understated shapes are combined with decorative refined details. The design of the ceramic collection is based on essential geometries, perfect circles and straight lines, but the detailing is transforming a modern shape into a sophisticated object. The simplicity of the faucet spout and body contrasts with the detailed aesthetic of the classic handles and flanges. Each item in VIC collection echoes and complements one another, to create an immersive and holistic bathing experience."

Finishing technology THE POWER OF PVD

PVD coatings (Physical Vapor Deposition) are superficial metal coatings in the form of extremely thin films, deposited with highly innovative technologies. Artize's PVD techniques are made to last forever.

Artize introduces colours. Hues so special, they are the perfect match to any refined taste. Each a perfect balance of design, quality, production standards, technology and precision. Vic's range of finishes give very different aesthetic results: design-oriented and minimal in black, classic but original in chrome, prestigious and aristocratic in gold.

The designers
DANELONMERONI

Claudia Danelon and Federico Meroni are DanelonMeroni Design Studio. They have designed Red Dot and Good Design award winning collections for Artize, enhancing the brand vision to deliver daily pleasure through art and innovation. Their work is the finely balanced result of creativity and pragmatism, aimed at triggering emotions while creating durable products designed to perform and last. Claudia and Federico love working with water, shaping its behaviour and thinking about the positive impact it has on our daily life.

DanelonMeroni Design Studio
partnered with Artize to curate 3
different interior moods with
unique architectural features,
materials and VIC finishes to show
the collection flexibility and
modern neo-classic adaptiveness.
Enjoy.

ECLECTIC

Classic inspiration is brought right up to date with details and materials. Elegant design and precious details are the features of Vic collection, which is perfect either for classic or more contemporary interiors. The black matt is a smooth and tactile finish, able to adapt to timeless architectural atmospheres. Black is not just a colour, it is a symbol of style, charm and refinement. Black is poetic, as painter Pierre-Auguste Renoir said: black is the queen of all colours.

AVANTGARDE

Vic design began from pure geometric shapes and enriched by exclusive and retro details to create an aristocratic line with broad appeal that is particularly well-suited to the world of architecture. The precious Blush Gold PVD finish reflects the nuances of nature, with the energy of the reds it gives light and adds an accent to every space.
