Wall Switch Recommended

Using the wall switch to control the power connection

Color Adjustment

6000K
white light

4000K
Natural light

3000K
Warm light

Short press to adjust the lighting color

COPPER-FREE BATHROOM SILVER MIRROR

- Compared with the common silver mirror used by most brands, it has the characteristics of environmental protection and low corrosion rate.
- Electronic parts are safe, energy efficient, and covered by containment.
- Easy and safe to install. It has a service life of more than 50,000 hours.

Unique Optical Design

- Inside the LED vanity mirror, there is a curved reflection frame behind the LED, which helps reflect and evenly disperse the light. The unique design will provide a much soft and evenly lighting to your room

ULTRA WHITE HD MIRROR

- The ultra-white glass we used could provide a much vivid and clear image than other regular white LED Mirror
