Inset Sink Fitting Instructions

Step - 1

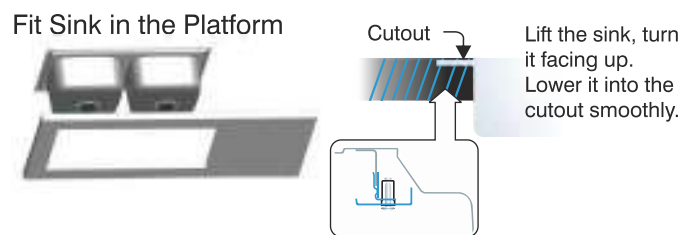

Place the sink in upside down position. Then attach clips into rectangular slots of the rim along the border, as shown in the sketch.

Step - 2

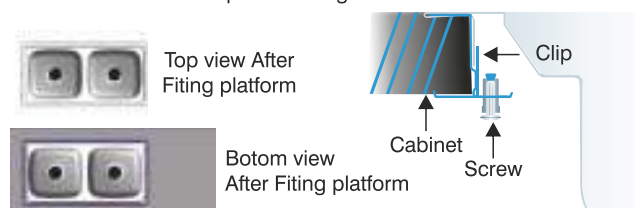

Step - 3

Step - 4

Turn the bracket of the clip 90 degrees so that the teeth of clips are under the tabletop. First tighten the center clips of each roil and then move to the outside clips. All clips must be tightened evenly. Do not over tighten the clips as damage can occur.

Various Finishes

Glossy

Glossy finished sinks have mirror like shining look.

Satin

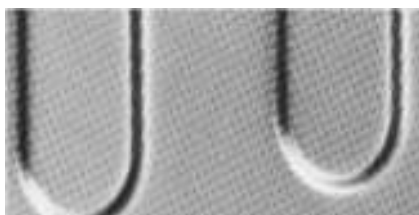

Satin finished sinks have that rich, buffed silver look achieved by a hi-tech process. And is the only brand that has specially imported these polishing machines from Germany & Italy, to attain this finish.

Hairline Satin

Hairline Satin finish is similar to satin finish which undergoes additional polishing that gives the appearance of micro lines running across the length of the product, giving it a rich elegant look and feel. (Available only in Expell and Magnus Range)

Anti-scratch

The special different dotted surface on these sinks give it Anti Scratch properties. Anti scratch sinks retain their contemporary elegant & immaculate look for years.

Three Different Types of Fittings

Set On

These sinks have border thickness of 18 mm. It is ideal if installed flush with granite.

Inset

Inset type sinks have borders lined with clips ideal for modular kitchens !

Plain

Plain type sinks have flat borders for correct sandwiching between the platform top and Granite slabs.
